

## CRITERION B: RECORD OF TASKS

Task number	Planned action	Planned outcome	Time estimate	Target completion date	Criterion
1	Coming up with the idea and meeting with the client	Discussing the possible solution with the client and getting the acceptance to work with them	3-4 days	15.03.2021	A
2	Telling the idea to the teacher	Getting the acceptance of the teacher	1 day	17.03.2021	A
3	Starting Interview with the client	Getting to know the system and the problem to come up with the solution	1 day	20.03.2021	A
4	Discussing the solution with the teacher	Getting the acceptance of the teacher and discussing the alternative solutions provided by him	2 days	22.03.21	A
5	Working on the design of the application	Creating a rough sketch of the application	3-4 days	28.03.2021	B
6	Interview with the client	Showing the design and getting recommendations to work with	1 day	04.04.2021	A, B
7	Starting first half of code for the application	Getting half of the functionality developed	7 days	15.04.2021	C
8	Researching Material Design for the visual side of the application	Getting overall components ready for the application	1-2 days	19.04.2021	B
9	Implementing Material Design for the first half of the application	Having components in place for the application (Home, Order Fragments)	3-4 days	25.04.2021	B, C
10	Implementing Material Design for the second	Having components in place for the	4-5 days	30.04.2021	B, C

	half of the application	application (clients fragment, add activity, map fragment)			
11	Constructing charts and drawing program back-end design	The finished design of logic of the application	4-6 days	07.05.2021	B
12	Starting writing source code for the First Half of Application	The working prototype of the first half of the application	1 Week	15.05.2021	C
13	Finishing Writing source code for the entire application	The working prototype of the entire application	9 days	25.05.2021	C
14	Meeting with the client	Showing the client, the application and getting suggestions on what to change	1 day	27.05.2021	B
15	Implementing the changes proposed by the client	Having an application ready to test	3-4 days	01.06.2021	c
16	Coming up with the testing plan	Functional Testing Plan for the application	2-3 days	05.06.2021	B
17	Testing the application	Identified last bugs and fully tested the program	2 days	08.06.2021	D
18	Fixing up the code	Code has comments to make it easier to the external developer to read and understand the code. Fixing bugs.	4 days	15.06.2021	C
19	Testing the final version of the application with the client	Showing the client the application. Making sure that he understands the functions correctly1	1 day	17.06.2021	D
20	Last meeting with the client	Getting the final feedback and writing down the possible extensions to improve the product in the	1 day	18.06.2021	A, D, E
